## EKOLOGI I ARKITEKTUR OCH PLANERING

ABF070

### Ecology in Architecture and Planning

**Poäng:** 4.0 **Betygskala:** UG. **Valfri för:** A3. **Kursansvarig:** Professor Finn Werne.

**Prestationsbedömning:** Presence 80% and a minor project or a paper. **Övrigt:** All lectures will be held in English.

**Mål:**

The course will introduce the foreign student to Ecological Planning and Architecture and supply their studies with relevant background materials in English.

**Innehåll:**

In Sweden architecture and planning topics have been given an increasing attention on all levels. From international, national, regional down to local levels, public and private resources are gathered in order to obtain a longterm sustainable social and economic development, in accordance with a healthy natural environment.

The course will introduce the foreign student to ecological planning and architecture and supply their studies with relevant background materials in English. Interdisciplinary cooperation will be planned when appropriate.

**Litteratur:**

Literature will be decided later.
